

LAWNS IN SPAIN

Lawn Maintenance Contract

Let us offer you peace of mind for your healthy green lawn all year round

Project 2, Issue 5

Newsletter Date: 8 Nov 2015

ABOUT THE CONTRACT

Just like your swimming pool contract, we will inspect and treat your lawn and supply all the products

to keep your lawn green and healthy. So why not let

us take the hassle out of maintaining your lawn.

We will inspect your lawn twice each month and make sure that it is green and healthy. If it is not then we will apply the necessary remedy.

So if your lawn is developing brown patches, going yellow, or looking generally unwell, we will investigate and provide the solution, all included in the price of the maintenance contract.

We know from experience that a maximum of twice per

month is sufficient to ensure that any lawn problems that are found are sorted and do not get out of hand,* and we mow the lawn when it's best for the lawn, i.e. when it needs it—not when it's convenient.

So, no more having to worry about your lawn. No more having to buy fertiliser, pesticide, herbicide, fungicide, weed killer or moss killer. Just one payment per month and we will do the rest.*

What we provide

In the contract price is included:

- 1) Any fertiliser required.
- 2) Any weed killer required.
- 3) Any repair seed required.
- 4) Any small repair work.
- 5) Any pesticide required.
- 6) Any fungicide required.
- 7) FREE on site lawn advice.
- 8) Twice monthly inspections throughout year.
- 9) Mowing as required.

(Does not include cost of grass plugs, over seeding, top dressing, de-thatching or wa-

tering. All contracts are subject to an initial soil test and lawn inspection—see terms).

All this, and all chemicals included for less than the cost of most pool cleaners !!
